TRUSTED BY SOME OF THE WORLD'S BIGGEST BRANDS

THE EVENT FOR BETTER CITIES

5-7 NOVEMBER 2024, BARCELONA

In a rapidly growing urbanized and digitized world where global challenges intensify, we need to fundamentally rethink our way of life and make technology, innovation, and collaboration our thrust to generate greater welfare, create opportunities, and cultivate a better relationship with our planet and our communities.

And we're proudly accelerating this. At the Smart City Expo World Congress (SCEWC), we convene a diverse crowd of industry executives, government leaders, researchers, and entrepreneurs to revisit complex issues lying at the heart of a new city and society model.

Year after year, we spur powerful connections between the whole global ecosystem that are vital to achieve the mission that keeps us going: enabling a better life for everyone. Making our cities and territories a better place to live in.

The countdown for SCEWC24 is on. See you in BARCELONA!

- Enabling Technologies
- Energy & Environment
- Mobility
- Governance & Economy
- Living & Inclusion
- Infrastructure & Building
- Blue Economy
