Where Visionaries Shape the Future of Real Estate

5th Edition | Four Seasons Hotel
26 - 28 Jan 2026 | Riyadh Kingdom Centre

The Real Estate Future Forum (RFF) stands as a global nexus for collaboration and innovation, uniting pioneering minds from around the world to elevate standards within the real estate industry.

The Story Behind the Brand...

From Concept to Impact

What will define the future of real estate?

In a world where markets shift overnight and innovation disrupts entire industries, the need for a space where visionaries and industry leaders can connect, collaborate, and create solutions has never been greater. That's why we built this Forum—not just as an event, but as a catalyst for change.

Here, transformative dialogue meets actionable insight. Thought leaders from across the globe gather to tackle pressing challenges, uncover emerging trends, and redefine business models that will shape the industry's next chapter. But our mission goes beyond conversation; it's about driving real economic impact—attracting investment, fueling GDP growth, and positioning our region as a global hub for real estate excellence.

This is where national talent and international expertise converge. Where ideas spark movements. Where the next era of real estate is imagined, built, and realized.

Together, we are not just witnessing the future—we are creating it.

Non-Saudi Ownership Law: A Game-Changer for Real Estate

Opening Saudi Markets to Global Investors

Saudi Arabia's landmark reform on foreign ownership marks a historic shift—unlocking direct property rights for non-Saudi individuals and companies in key sectors.

Impact on the Market

- Expands access to one of the world's fastest-growing real estate markets.
- Drives inflows of global capital, partnerships, and expertise.
- Elevates Saudi Arabia's position as a premier international hub for real estate investment.

Key Provisions

- Enables non-Saudis to own real estate across residential, commercial, and investment-grade assets.
- Strengthens transparency, regulatory clarity, and investor protection under the Real Estate General Authority.
- Integrates with Vision 2030 goals to attract FDI, diversify the economy, and expand global competitiveness.

Why It Matters for RFF2026

At RFF 2026, the non-Saudi ownership law stands as a centerpiece of dialogue—bridging global investors with local opportunities, and setting the stage for billions in cross-border collaborations.
